

WAC Decreases

Multiple manufacturers are reducing their WAC values over the coming months, and most are offering limited-time rebate programs during the transition. Managing inventory during this time is critical for your business.

**Product must be received at your Cencora distribution center prior to this date.

Action Items

1. Return any excess inventory to your Cencora distribution center prior to the return deadline.
2. Purchase products day by day, only as needed, leading up to the rebate window.
3. Purchase products during the rebate period and minimize any purchases outside of it. Be especially mindful of manufacturers whose rebate programs do not run through the end of the year and purchase enough to carry you through the WAC change date.
4. Alert all pharmacy staff members to the WAC decreases and post this handout for their review.
