### Action Items

1. Print this document so your team is aware of the new WAC prices for many of the faster moving items. Scan the QR code at the top of this page to download the full list.
2. Monitor reimbursements for anything that looks incorrect based on the new WAC values or MFP (Medicare claims only).
3. Utilize our WAC Decrease Credit Calculator Tool to calculate an estimate of your manufacturer rebates owed based on your purchases during the credit window. PDF and Excel versions are available via the QR code above. CPA Pharmacies: As in years past, CPA calculated your pharmacy's expected rebates and will reconcile that against actual rebates paid.
