LinzeSS limited duration pharmacy purchase rebate program

AbbVie has announced that they will reduce the Wholesale Acquisition Cost (WAC) of LinzeSS. **All three strengths of LinzeSS (72 mcg, 145 mcg, and 290 mcg) will be lowered from the current WAC of \$567.97 to \$282.48 effective January 1, 2026.**

Decreasing WAC price for prescription medications may have implications to the channel. To support customers through this transition, **AbbVie will be offering a LinzeSS Limited Duration Pharmacy Purchase Rebate Program.**

To administer the rebate program, AbbVie has partnered with all authorized wholesalers and distributors to proactively provide a rebate to their customers for the WAC differential on eligible purchases.
